

# ManageAbility continues to grow with your support!

## Thank you.

---

At ManageAbility, we understand the difficulties you are faced with in resolving your claims. Our mission is to find the right case managers to help you with this job. There is really no substitute for experience. We are committed to finding the most experienced and proven case managers in the Casualty Insurance Market. We are focused on helping our customers achieve positive case management outcomes with their claims. We appreciate the opportunity you presented us with in helping you in 2008 and we look forward to being a solution for you in 2009. Thank you for your business.

Please help us welcome Cara Chester to the ManageAbility family.

ManageAbility is excited and pleased to announce the recent addition of Cara Chester to our Managed Care services and products team. Cara brings 14 years of experience as a Field Case Manager in the area of vocational rehabilitation for workers compensation, personal injury, as well as short and long-term disability cases. With a need for coordination of cost effective plans for earliest return to work, Cara uses her expertise in order to counsel, assess and create transitional return to work programs for injured claimants who are unable to find employment on their own. Cara is a Certified Rehabilitation Counselor and holds a Masters Degree in Rehabilitation Counseling from Wayne State University. Please welcome her to our team of experts at ManageAbility, Inc.

Cara can be reached by phone at (734) 536-2979, fax at (586) 469-0218 or e-mail at [cchester@manageability.com](mailto:cchester@manageability.com).

For more information on all of our services and products please feel free to visit [www.manageability.com](http://www.manageability.com) or call:
